

## What's Inside Tooth Goodbyes

A sensory-safe guide to what happens when a tooth is taken out.

## Why Teeth Say Goodbye

\*Ouch!

Baby teeth sometimes get wobbly like jelly and then fall out.

## Making Space

When baby teeth fall out, they make space for new teeth to grow.

## New Teeth Arrive

New teeth are stronger and help me eat and smile as I get bigger.

## How It Feels

It's okay if it feels funny — it means my smile is growing too.

## Smiles Growing Strong

New teeth help my smile stay bright and healthy as I grow.
